Resumes for Educators

Complete wording, layout, & design of resumes and cover letters for recent college grads in Education, seasoned Teachers, and school Administrators

by: vicque fassinger
blue flamingo productions

Written from 25+ years of experience helping thousands upon thousands of clients in every field imaginable, I am pleased and excited to offer you my authentic and effective wording for your field in an affordable, user-friendly **\$7 Report**. This report includes a unique **objective**, a specific-to-the-field **highlights** section, a sharp **professional skills** section, an **education** section, an **experience** section, and an **additional info** section. Each section of the resume is customized exclusively to your particular field (whether you are currently in that field or looking to get into that field). You can use my exact wording, or feel free to tweak my original work to fit your particular needs and background. In addition, I have included actual cover letters I have written for educators and sample thank you notes!
